Absentee Ballot Contactless Drop-Off Plan

In an effort to minimize delays during in-person voting and to promote contactless voting, Ulster County has developed the following plan for absentee ballot drop-off for the 2020 General Election.

Ulster County voters may drop off a completed absentee ballot at the following locations without waiting in line with in-person voters. Once you enter the drop-off location, you will be directed to the clearly marked absentee ballot receptacle, generally located at or near our COVID19 sanitation tables, where you may deposit your ballot. Each receptacle used to collect ballots, when not situated within reach of an election inspector, will be secured to the location in use to avoid any potential theft or tampering. Wearing a mask and adhering to social distancing guidelines while at these locations is required.

- Ulster County Board of Elections
